## How do you describe the great lakes gurgaon

"It was a transformational period in my life; as a fresher I received much required knowledge from faculty and experienced classmates. My job in Wartsila is giving me opportunities to travel and work with peers across the globe." Showing 30 Reviews Anonymous Last Seen: 17 May '21 Joined On: 27 Jul' 18 Education Interest: Management Education Level: In Graduation Posted on 17 May '21 by Anonymous This user choose to post privately in case a user is anonymous. College Infrastructure College infrastructure is very well equipped and provides everything. From classroom equipments to hostel and mess everything is very well maintained. During quarantine period all regulations were followed. Academics The faculty of PGDM is great with the cream faculty being of Marketing and Analytics. The way of teaching and work assignments is quite appropriate. Regular assignments and quizzes are taken for evaluation of students. Placements Quality of placements is good. Quality of roles offered are also nice. Average placement is around 8.5 lakhs for an average student. Less than 5 students are left for placement and rest have got great roles. Track record of summer placement is also satisfactory. Value-for-money Per year Cost is around 7.5 lakhs. Given the pandemic things shifted online and college reimbursed hostel and mess fees. Campus Life For the limited period of 2 months students got the chance to go to campus and it was worth it. Anything Else NA Infrastructure Placements Academics Value for Money Campus Life Is this Review Helpful? College Infrastructure College infrastructure is excellent with all modern equipment. No playgrounds alrough. Hostels are good with AC in every room. Campus is not very large decent enough tough. 30km from Gurgaon, Bilaspur. Academics best teachers in India, for MBA, they are industry experts and come with huge experience. Teaching is the key at GLIM, and they will provide you best faculties of every field. can search about faculty on College website Placements More IT related placements, less core placements. If you have IT related Work experience it is easier to find job. If looking for core finance or marketing jobs, not the ideal college, as limited companies visit. 90% almost gets placed Value-for-money Fees on higher side Anything Else Good Infrastructure Placements Academics Value for Money Campus Life Is this Review Helpful? (0) Last Seen: 10 Apr '21 Joined On: 10 Apr '21 Education Interest: Management Education Level: Graduate & Above Posted on 09 Apr '21 by HIMANSHI JAIN College Infrastructure The infrastructure is good and clean. Ample space for studying, relaxing, facilities like gym, library, 24\*7 food, stationary shop, Wi-Fi etc, makes the environment livable and friendly. Amphitheatre is my personal favourite. Academics The curriculum is designed to develop the students holistically and gives you a taste of real world as well. It is updated has great visiting faculties from time to time, includes guest lectures as and when required. Placements Placements have been good. You can find more on the website. Details like average package, median package are all available on the website. You can also contact the CCS team for more knowledge on this particular topic. Value-for-money Rich experience, knowledgeable mentors and faculties. The fees for me, overall was 15 lakhs including hostel. The program was residential and had quite strict rules about it. The attendance isn't something you'd wanna mess up. Campus Life Enjoy it, worth the while. Best feature has to be the freedom to be anywhere at any time all through the campus. Even though the place is little small, it gives you chance to interact with more people. The wardens are both good, and helpful at times. Anything Else Good to go for a two year long roller coaster ride. Infrastructure Placements Academics Value for Money Campus Life Is this Review Helpful? College Infrastructure Campus is very huge. It is expended in 7.2 acres of land. The campus is located just off NH 8 and is easily accessible from the corporate hubs of New Delhi including all the necessary facilities and equipment of latest technology. Academics The faculty is very good here. The faculty come with highly acclaimed credentials from leading institutions in the country including IIM ahmeddabad and XLRI Jamshedpur as well as international ones including university of Houston and George Washington university and also teach at many renowned institution worldwide. Placements The quality of placement is very fruitful here for students as the average package offered to the students last year was Rs 12.8 lakh per annum and the highest package was of Rs 18.8 lakhs per annum.. Infrastructure Placements Academics Value for Money Campus Life Is this Review Helpful? (0) Last Seen: 01 Apr '21 Joined On: 15 Jun '14 Education Interest: Commerce Education Level: Class 12 Posted on 25 Apr '20 by Yashank jain College Infrastructure The infrastructure at great lakes, gurgaon is well equipped with all the amenities one would require. Classrooms are well equipped with the latest technology and pretty spacious as well. Library is very good having vast collection of books and a huge reading area too. Campus is fully wifi enabled and there are no network issues as such. Hostel and food is very hygienic. There is a variety of food offered. Academics Im studying PGDM with major in finance and minor in Analytics as i want to go ahead in investment analyst. The faculty here is one of the best in every domain. Be it marketing, finance, hr or operations, we have specialists in every domain from the college. The curriculum here is very dynamic. One would get to study the emerging trends in the industry like big data, cloud, etc., with real life case based problems. This makes us ready to serve the industry well. Placements The placement record at great lakes gurgaon is good. They place almost all the students in the batch while some may go for their own if they are getting better opportunities outside. The average salary offered was 9 lpa. The placement process was very smooth and pleasant with timely updates about different companies and their processes. Infrastructure Placements Academics Value for Money Campus Life Is this Review Helpful? (0) Last Seen: 04 Apr '20 Joined On: 04 Apr '20 Education Interest: Management Education Level: Graduate & Above Posted on 04 Apr '20 by Arun shivanand College Infrastructure College is moved to new campus now Classrooms are very good with smart board installed.They also provide Wifi 24\*7 both in hostel and campus.Living spaces are very clean and maintained by Sodexo. Everyday they clean the floor and bathroom twice and rooms once using wet mops.Everything is practically available inside the campus.Food is available till 3 am in the morning.Sports facilities little lacking they not have ground for football and badminton court.Emergency van also available at campus. Academics I am PGPM executive student(Marketing Major).My experience was more than average i came here mainly for transformation which i got.Great lakes has phenomenal world class faculties who teach us the world which is upcoming.Prof. Mudit kurukshetra,Prof.Bappadiya are some great faculty of AI and Analytics. The course curriculum is updated as per industry standards and they provide mix of both theoretical and practical knowledge. Placements Placements are quite tricky depending upon taste of real world as well. It is updated has great visiting faculties from time to time, includes guest lectures as and when required. Placements Placements have been good. You can find more on the website. Details like average package, median package are all available on the website. You can also contact the CCS team for more knowledge on this campus this year.Most of the companies offered profile of Marketing and Business Analytics. Value-for-money I was in one year MBA exec. course which means the ROI is practically good.The overall course fee is 16.5 lakhs including hostel.College also have location advantage which is not very from MDI Gurgaon. Company do visit to our campus also.Gurgaon which have corporate head offices come for placements.Overall it is worth joining this college. Campus Life College campus is not very big but it have all basic amenities which students needed.I would say we need more co-study rooms for projects as the girls are not allowed inside Boys hostel.College location is best as it have good connectivity with cyber city.It is safe place for both girls and boys.College also have floodlights for students so that they can play in Night.Many co curricular and extra curricular activities takes place in college,many students from different colleges come and partici. Infrastructure Placements Academics Value for Money Campus Life Is this Review Helpful? (0) I am in my 2nd year of PGDM, The campus is lushy green with pleasant environment, Having veteran faculty members who are always helpful in building our career. With regular guest lecture by CEO's and other top management from various companies gives a wider opportunity to understand the happenings of industry. College also provides excellent placement seasons with pretty good set of companies . The best place to shape your career path.. Guest lectures and experienced professionals from the industry gives us a clear picture to how to align my thought process in right way. We always celebrate the bond we share with each other during festivals and functions and activities as well. Overall i feel proud to a Great Laker and i wish to cherish this throughout. Infrastructure Placements Academics Value for Money Campus Life Industry Exposure Student Crowd Hostel Is this Review Helpful? (0) It has been really exciting to be part of Great Lakes. Although we are still developing in Infrastructure and other amenities the quality of education and expertise of faculties is par excellence.However,the institution can focus more on industry exposure to keep abreast with the latest of academics. This is real place to learn with fun. Proud to be a Great Laker. Infrastructure Placements Academics Value for Money Campus Life Industry Exposure Student Crowd Hostel Is this Review Helpful? The campus has an indoor area which has a Gym , Table tennis play area , A lawn in front of the hostel to play any outdoor games , a cafeteria, and a Library . The college can bring in the ATM facilities and a small shop inside the campus for a better accessibility. The late night chats with friends are a pure bliss. The college really has a good ROI. Without any second thoughts, you can invest for your management studies! The faculty teaching, industry exposure, and CXO talks are all commendable . One need not have any second thoughts and can choose this B school with a positive mindset. Infrastructure Placements Academics Value for Money Campus Life Industry Exposure Student Crowd Hostel Is this Review Helpful? (0) Our college provides an excellent infrastructure with a big campus and all facilities. In order to enhance the corporate exposure, we are provided with continuous interaction with industry experts as guest lecturers and industry visiting that provides us a practical learning. The college life made me so enjoyable - all the late night parties are a bliss, friends, late night assignments and ppt's, last moment preparations, campus, friendly faculty, and atmosphere. I am still pursuing my 2nd year of MBA - so will be placed by December. Our hostels are provided with all the facilities, what do you want apart from that. Exceptional professors from my college are most of the faculty but as i am a marketing bug, marketing facilities are the best. The student crowd at our college is 300 which is pretty good enough for a perfect B-school limited students, great caring by the faculty, fabulous placements and moreover the way one get to know each other is very easy. Small crowd but tough students as each one of them have excellent talents where you can find in this place. In my point-of-view b-schools must have a small crowd as it is not a school to have overloaded students. My college is affordable in terms of placements, enjoyment, campus, infrastructure, hostel, facilities, care taken by faculty, friends and fellow members,counselling sessions, and events that take place. We learn, fight for the competitions and never utilize the learning and in the long run forget the teachings and work according to our daily requirement. But at Great lakes, I learned how to absorb knowledge and utilize in our daily work. The best way of teaching I have ever experienced with world-class faculty. The course is designed very nicely to make us discover our true potentials and work on weakness. The course is hectic as it is a one year program. Probably, you might get a 6 hours sleep once in a blue moon. But it has developed my attitude towards life. The campus is under construction hopefully next batch will get a fully working campus. Till now only indoor games are available but outdoor facilities must be provided. The best feature of the bschool is World Class faculty and the guidance they provide. Placement season is soon to come and as the college has secured AICTE approval and permanent campus there are high hopes of good companies entering the campus. Our CCS team is working hard by collecting leads and interacting with corporate people engaging with them and inviting them to a Guest lecture or some event.As its a one year program, it's a fast pace course and you can't do any extracurricular activities but college must help us with some time and facilities for the same. Our hostels are good, facilities are good. Some Professors were there who made an impact on me as they taught Marketing in a very practical manner which made me think and develop my marketing skills very easily. They made our learning very very easy and made us think more rather than mugging more. We have 25 girls and 75 boys in our college and all come from diverse background and add up their knowledge and learning at their work. So, a good peer learning happens. Fees I paid were approx 14 lac for my course and the quality education what is being offered makes me feel affordable education. In one line i will say Great Lakes makes a leader with all important qualities and knowledge. Infrastructure Placements Academics Value for Money Campus Life Industry Exposure Student Crowd Hostel Is this Review Helpful? (0) Everyone experiences their time at Great Lakes in a unique way. You spend your time on activities and opportunities that get you really excited. By the end of the program, you are equipped with all the necessary arsenal to be the agents of change withing the organization or as an entrepreneur. This is truly a place where learning meets fun! Infrastructure Placements Academics Campus Life Industry Exposure Hostel Is this Review Helpful? (1) Last Seen: 21 Aug' 16 Joined On: 26 Sep' 14 Education Interest: Management Education Level: Graduate & Above Posted on 29 Oct' 15 by Revati It is one of the best college in terms of education which is provided to us by the best of the faculty who come from the best colleges in India as well as abroad. Not just education wise, it has a great state of art infrastructure which creates a very good ambience for the students for studies in terms of classrooms and also for their lives in the hostel. The Corporate and Career Services department of the college leaves no stone unturned to provide best opportunities for the students for their summer internships and the final placements. Infrastructure Placements Academics Campus Life Industry Exposure Hostel Is this Review Helpful? They do have an excellent faculty with professors coming from respective industries to teach different subjects.The course curriculum is updated as per the changing trends in the industry.For example subjects like Digital marketing and Internet Business are taught which are emerging field.The one things which disappoints is that they still do not have a campus which makes life difficult for students.Talking about placements over the last few years , it has been a good option for people who are planning to get into the IT industry and e-commerce industry. Overall its a good option to take up if one cannot wait to have another shot at the mba entrance exams. Infrastructure Placements Academics Campus Life Industry Exposure Hostel Is this Review Helpful? (0) Doing one year PGPM at Great Lakes has been a stupendous experience in terms of learning various diversified courses especially analytics subjects, coordination with team members, projects in courses, live project, guest lectures. Getting to know various dimensions of business domains, management related happenings, insights to approach taken in resolving business problem by case studies or through class room discussion has been sensational experience. Emphasis has been on enhancing skill sets and developing new competencies while learning term courses will be a key ingredient to success in coming days. Infrastructure Placements Academics Campus Life Industry Exposure Hostel Is this Review Helpful? (0) Excellent Curriculum with pronounced industry interaction, Location of Great lakes is a big plus point which is in vicinity to major e-commerce players. Knowledge gained till date has been remarkable as inputs and insights of subjects has been substantial in terms of length and breadth if not depth. Projects in every subject and team work, interaction with faculty and classmates has been an enriching experience. Though downside is Great Lakes not having its own campus, big takeaways have been industry exposure, guest lectures from eminent CXO's. Hence I had magnificent experience in Great Lakes. Infrastructure Placements Academics Campus Life Industry Exposure Hostel Is this Review Helpful? The 3 batches PGPM, PGPME 1st year and 2nd year are housed in 3 separate hostels which have no restrictions at all(the best part).Faculty is the USP here and i believe its one of the best in india( pooling in with GLIM Chennai). College life is virtually non existent for PGPM term 1 and 2 is bit light but from term 3 its hell and u dont have time even for our self.The industry exposure is again what stands out and the mentoring by teachers especially the marketing faculty is just too good. All in all a place that could have been more better considering it has all the ingredients to stand out. Wont mention anything about placements as the data in site is not fake and after 5 months in here, placement package is not something i'm worried about.more concerned with the role i will land. Infrastructure Placements Academics Campus Life Industry Exposure Hostel Is this Review Helpful? (4) It has been a very hectic experience in this one year at Great Lakes Gurgaon. But, one thing which i must say is that the faculty has been fabulous. It has been a great learning experience. Although the infrastructure is a major drawback for this college but the learning experience just overshadows all other drawbacks. They are the true force behind the program. I respect them for their contribution in my life. They remove all your stress and pressure. They prepare you for the best and the worst. They will guide you in the most correct manner. Make the most of your 2 years. Because I am witnessing those positive changes. Thanks Great Lakes Gurgaon. Thank you so much. Infrastructure Placements Academics Campus Life Industry Exposure Hostel Is this Review Helpful? (9) Anonymous Joined On: 15 Oct' 15 Education Interest: n/a Posted on 15 Oct' 15 by Anonymous This user choose to post privately in case a user is anonymous. A excellent place to be. Has a great connect with the upcoming industries such as e-commerce and business analytics. The staff are excellent and ever approaching. The insights provided are excellent. The only blemish is the college campus. The session begins with a energizing outbound visit to either of Rishikesh or Jim Corbett National park and is a wonderful beginning. The hostel though not in the college campus is a good place to be in. Things to focus are:- a bit on placements and on a college campus, the college is very well led by Lakhmaraju brothers and they are headed in the correct direction. All the Best ! Infrastructure Placements Academics Campus Life Industry Exposure Hostel Is this Review Helpful? (4) I am currently a student of Great Lakes Institute of Management, Gurgaon pursuing Post Graduate Program in Energy Management (PGPME). Since the inception of its Chennai campus in 2004, Great Lakes has already established itself as a brand and is currently considered among the best b-schools in the country. Great Lakes, Gurgaon offers Post Graduate Program in Management (PGPM) and Post Graduate Program in Energy Management (PGPME). The energy management program offered in Great Lakes, Gurgaon is unique in its own way. The faculty pool of the college is excellent and is at par with the best in the country in contemporary times.Great Lakes has assembled some of the finest names in academia from both India and abroad. Besides, some of the subjects are taught by industry persons from NTPC, BPCL etc in conjunction with the college professors.The professors play a great role in keeping the students occupied and instilling in them an appreciation of the worth of each minute they spend at the institute. There are frequent guest lectures by eminent industry personnel s who give deep insight in industry related activities. The environment in the college is incredible. The exposure one can receive in here is immense. The placement is excellent with average package of 8.74 lacs/annum and highest package of 13 lacs/annum in PGPME . For PGPM, the average package is 9.60 lacs/annum and highest package is 13.45 lacs/annum. The Great Lakers (students of Great Lakes) regularly participate in various competitions organised by institutes like IIMC, TERI etc and companies like Deloitte and have consistently bagged awards from such competitions. Overall, it provides you a platform from where you can take your career to great heights. Infrastructure Placements Academics Campus Life Industry Exposure Hostel Is this Review Helpful? (4) College has a great infrastructure,good placements,diversity in students but to top it all, it has a very good faculty.Most professors come with vast amount of experience in top notch universities.Placements are generally in IT/ITES domain,which is the only point college can do better upon. Infrastructure Placements Academics Campus Life Industry Exposure Hostel Is this Review Helpful? (0) Last Seen: 15 Oct' 15 Joined On: 10 Oct' 15 Education Interest: n/a Posted on 10 Oct' 15 by Tarun The institute is 1 of the fastest growing colleges in the country. The faculty is bad. The placements have risen every year since it's inception in 2010. The first campus was established in 2004 in Chennai and the placement figures from there have carried on to the Gurgaon campus. The average ctc for the batch of 2014 was 8.28 L which increased to 8.74 L for the 2015 batch. The campus is due for an upgrade in Vasant Kunj. As of now, they operate out of a temporary campus in Udyog Vihar, a stone's throw away from all the major corporates in Cyber City. This adds to the college's advantage to attract top corporate for guest lectures as well as final placements. Check out the portfolio of the companies that visit the campus. It is awesome.
